## TEABAGS INDIVIDUALLY WRAPPED IN PAPER

For conferences, breakfast and self-service areas a large and fine selection of teas is requested. Our teabags, which are individually wrapped in paper, are practical and hygienic and keep the tea flavouring fresh. True to our philosophy "EILLES TEA - for the highest expectations", our teabags are of premium quality for both experts and gourmets. The classic tea lover is however quite conservative and prefers the traditional tea varieties. Tea is fashionable and in particular younger people, modern and innovative, taking hold for products with organic and wellness qualities. For both demands we offer an exciting and diversified range of teas, CLASSIC TEA, SPECIAL TEA, as well as Fairtrade certified teas. International customers also have easy access to their favourite teas since our packages have information and instructions in 9 languages. For our ecological awareness we have renounced of metal brackets. Altogether that means a complete delight from the plant into the cup!
